The International Defensive Pistol Association (IDPA) is the governing body of a shooting sport that simulates self-defense scenarios and real life encounters. It was

founded in 1996 as a response to the desires of shooters worldwide. The organization now boasts membership of more than 20,000, including members in 50 foreign countries.

One of the unique facets of this sport is that it is geared toward the new or average

shooter, yet is fun, challenging and rewarding for the experienced shooter. The founders developed the sport so that practical gear and practical guns may be used competitively. An interested person can spend a minimal amount on equipment and still be competitive.

The main goal is to test the skill and ability of the individual, not equipment or gamesmanship. "Competition only" equipment is not permitted in this sport.
